Clivra Tech
Pvt Ltd

WEBSITE DEVELOPMENT & E-COMMERCE SERVICE AGREEMENT

Agreement Date: 05-10-2026

This Website Development Agreement ("Agreement") is entered into between:

1. PARTIES

Service Provider:

Clivra Tech Pvt. Ltd.

Ponmuthu nagar, Vadugapalayam , Pollachi , Coimbatore, Tamil Nadu, India

Hereinafter referred to as the **"Developer"** or **"Service Provider."**

Client:

Decor 41

Address: Sooleswaranpetti,Valparai road,Pollachi

Contact Person: Kavin Kumar

Contact: 86677 06941

Hereinafter referred to as the **"Client."**

The Developer and Client are collectively referred to as the **"Parties."**

---

2. PROJECT

The Client has engaged the Developer to design, develop and deploy an **e-commerce website for Decor 41**, based on the prototype supplied and approved by the Client.

The website will allow customers to browse Decor 41 products, view product information and variants, add products to cart, place orders, make payments through supported payment methods and receive order confirmation.

The project will also include an **administrative management panel** for managing products, orders, sales and leads.

The final website will be developed based substantially on the approved prototype and the scope described in this Agreement.

---

3. CUSTOMER-FACING E-COMMERCE WEBSITE

The website will include the following major functionality:

3.1 Home Page

- Decor 41 branding and visual design
- Hero/banner section
- Shop Now and category navigation
- Featured/bestselling products
- Made-to-order/custom laser-cut section
- Automotive product section
- Customer reviews/testimonials
- Promotional offers
- Newsletter/first-order offer section
- Shipping and service highlights
- Footer with relevant business information and navigation

3.2 Product Categories

The prototype includes product categories such as:

- Laser Cut
- Posters

- Spoilers
- Table Plants
- Wallpaper
- Car Stands
- Cars

The Client may add, remove or rename categories during development, provided such changes remain within the agreed project scope.

3.3 Product Listing

Customers will be able to:

- Browse products by category
- View product cards
- View product pricing
- View product availability
- Search for products
- Open individual product pages
- Add products to cart

3.4 Product Detail Page

Each product may contain:

- Product name
- Product images
- Product description
- Product features
- Product specifications
- Product variants/finishes
- Product sizes
- Pricing
- Discount/MRP display where applicable
- Customer rating/review display
- Quantity selection
- Add to Cart
- Buy Now
- Delivery information
- Return information
- Related/recommended products

3.5 Custom / Made-to-Order Products

The website will include functionality/content for Decor 41's custom laser-cut products, including the concept of allowing customers to submit a sketch, logo, name or design for custom production.

Any advanced custom-design configurator, automatic quotation system, artwork editor, file-processing system or automated design-generation system is **not included unless separately agreed in writing**.

---

4. SHOPPING CART

The e-commerce website will include a shopping cart system with:

- Add to cart
- Remove from cart
- Increase/decrease quantity
- Product variant information
- Product size information
- Subtotal calculation
- Discount/coupon calculation
- Shipping calculation
- Final order total

The prototype includes promotional coupon functionality, including first-order discount functionality.

---

5. CHECKOUT SYSTEM

The checkout system will collect:

Customer Information

- Full name
- Mobile number
- Email address

Delivery Information

- Address
- City
- PIN code
- State

Delivery Options

The prototype includes:

- Standard delivery
- Express delivery

The final delivery charges and delivery periods will be configured based on the Client's actual shipping policy.

---

6. PAYMENT GATEWAY INTEGRATION

The Developer will integrate a suitable third-party payment gateway selected and approved by the Client.

The payment system will support the payment methods made available by the selected gateway, such as:

- UPI
- Debit/Credit Cards
- Other gateway-supported online payment methods

The website may additionally support **Cash on Delivery (COD)** if required by the Client.

Payment Gateway Responsibilities

The Client shall:

- Create and maintain the payment gateway account.
- Complete KYC/business verification.
- Provide required business documents.
- Provide API credentials/keys required for integration.

- Maintain the payment gateway account in good standing.
- Bear payment gateway transaction/convenience charges.
- Bear any applicable taxes or third-party charges imposed by the payment provider.

The Developer will integrate the gateway using the credentials and technical documentation supplied by the Client.

The Developer will not be responsible for payment gateway account approval, transaction failures caused by the payment provider, banking issues, payment-provider downtime or account suspension.

Payment Security

The Developer will not intentionally store customers' complete card numbers, CVV or other sensitive payment credentials on the website's own database.

Payment processing will be handled through the selected third-party payment gateway's approved infrastructure.

---

7. ORDER MANAGEMENT

After successful order placement, the system will generate an order record containing relevant information such as:

- Order ID
- Customer name
- Contact information
- Delivery address
- Products ordered
- Product variants
- Quantity
- Order amount
- Payment method
- Payment/order status
- Order date

The customer will receive an order confirmation page after successful order placement.

Email, WhatsApp or SMS notifications beyond the functionality specifically

implemented in the agreed project scope will require third-party services and may involve additional charges.

---

8. DELIVERY & SHIPPING

The website will support configurable delivery charges and delivery options.

The prototype currently represents:

- Standard delivery: 3–6 working days
- Express delivery: 1–3 working days
- Free standard shipping above the configured order threshold
- Paid shipping below the threshold
- Additional production time for custom laser-cut products

The exact shipping charges, delivery areas, courier partners, delivery timelines and shipping policies will be provided and approved by the Client.

The Developer is responsible for implementing the website functionality, but **actual delivery, courier performance, delays, lost packages and logistics are the Client's responsibility**.

---

9. RETURN & REFUND INFORMATION

The website will display the Client's approved return/refund policy.

The prototype currently represents a 7-day return policy for eligible unused products and different treatment for custom-made products.

The Client shall provide the final legally applicable:

- Return policy
- Refund policy
- Cancellation policy
- Replacement policy
- Damaged-product policy
- Custom-product policy

The Developer will publish these policies on the website as provided/approved by the Client.

The Developer will not be responsible for disputes arising from the Client's commercial return, refund or cancellation policies.

---

10. ADMINISTRATIVE PANEL

A dedicated administration panel will be developed for Decor 41.

The prototype includes the following sections:

10.1 Dashboard

The dashboard will provide an overview of:

- Revenue
- Orders
- Pending orders
- New leads
- Low-stock products
- Sales overview

10.2 Sales / Orders

The administrator will be able to:

- View orders
- View customer information
- View ordered products
- View order amount
- View payment method
- View order date
- Update order status
- Filter orders by status
- Export sales/order information as CSV

Order statuses may include:

- Paid
- Pending
- Shipped
- Delivered

- Refunded

10.3 Lead Management

The admin panel will include a lead-management section for:

- Lead name
- Contact information
- Product/service interest
- Lead date
- Lead status

Lead statuses may include:

- New
- Contacted
- Won
- Lost

10.4 Product Management

The administrator will be able to:

- Add products
- Edit products
- Delete products
- Set product category
- Set price
- Set stock quantity
- Add product variants
- Add product images
- Make products visible/hidden
- Search products
- Filter products by category
- Monitor low-stock products

The final database structure may be adjusted during development to support the production version of the system.

---

11. RESPONSIVE DESIGN

The website will be designed to work across:

- Desktop computers
- Laptops
- Tablets
- Mobile phones

The final responsive implementation may make reasonable layout adjustments compared with the desktop prototype to ensure usability on smaller screens.

---

12. SEARCH & PRODUCT DISCOVERY

The website will include product search functionality.

Customers will be able to search for relevant products using product names, descriptions and available category information.

---

13. COUPONS & PROMOTIONS

The prototype includes promotional coupon functionality.

The initial implementation may include:

- Coupon code application
- Percentage discount
- Free-shipping promotion
- Promotional offer display

Any advanced coupon engine involving multiple rules, customer-specific coupons, automatic campaigns, expiry management, usage limits, referral discounts or complex promotional combinations will require separate specification.

---

14. DESIGN & PROTOTYPE

The supplied Decor 41 prototype will be treated as the primary visual and functional reference for the project.

The Developer will reproduce the approved:

- Layout
- Navigation
- Typography
- Colour scheme
- Product presentation
- Checkout structure
- Admin interface structure
- Responsive behaviour

Minor UI adjustments may be made where technically necessary to improve usability, responsiveness, performance or compatibility.

Major redesigns or substantial functionality changes requested after approval may be treated as additional work.

---

15. CLIENT RESPONSIBILITIES

The Client agrees to provide all materials reasonably required for development, including:

- Logo and branding assets
- Product names
- Product descriptions
- Product photographs
- Product prices
- Product variants
- Product specifications
- Stock information
- Business contact information
- Shipping policy
- Return/refund policy
- Terms and conditions
- Privacy policy content
- Payment gateway account details
- Domain/hosting access where required
- Business/legal information required for payment gateway or hosting verification

Delays in providing required content, credentials or approvals may extend the

project delivery timeline.

---

16. DOMAIN, HOSTING & THIRD-PARTY SERVICES

Domain registration is not included in the project cost of ₹15,000.

The Client shall bear the cost of purchasing and renewing the domain.

Hosting, database, storage, email services, payment gateway charges, SMS services, WhatsApp API charges, CDN services and other third-party services are also **not included unless specifically mentioned in this Agreement**.

Where such services are required, the Client will bear the applicable third-party charges.

The Developer may assist with configuration and deployment of these services where included in the project scope.

---

17. SEO

The Developer will implement basic technical SEO elements required for the website, such as:

- SEO-friendly page structure
- Page titles
- Meta descriptions
- Heading structure
- Search-engine-friendly URLs
- Basic sitemap configuration
- Basic robots configuration
- Image alt text where applicable
- Mobile-friendly implementation

This Agreement does not guarantee:

- Google ranking positions
- Specific keyword rankings
- Organic traffic levels

- Sales or revenue generated through search engines

Advanced SEO, content marketing, backlink building, ongoing SEO campaigns and monthly SEO management are outside this Agreement unless separately contracted.

---

18. SECURITY & DATA

The Developer will implement reasonable technical practices appropriate to the agreed website architecture.

The Client is responsible for:

- Protecting administrator credentials
- Maintaining payment gateway account security
- Providing accurate business and customer policies
- Ensuring legal compliance for customer data collection
- Ensuring compliance with applicable taxation, e-commerce, consumer-protection and privacy requirements

The Developer will not be responsible for security incidents caused by compromised third-party services, stolen credentials, server-provider incidents, payment-provider incidents or unauthorized access resulting from Client-side credential sharing.

---

19. TESTING

Before final delivery, the Developer will conduct reasonable testing of the agreed functionality, including:

- Website navigation
- Product browsing
- Product detail pages
- Cart functionality
- Checkout flow
- Payment gateway integration
- Order creation
- Admin functionality
- Responsive layout
- Major supported-browser compatibility

The Client will be given an opportunity to review the completed website and report bugs related to the agreed scope.

---

20. CONTENT & PRODUCT DATA

The Client is responsible for the accuracy of:

- Product prices
- Product descriptions
- Product images
- Product specifications
- Stock information
- Shipping charges
- Return policies
- Tax information
- Legal/business information

The Developer will not be responsible for losses resulting from inaccurate information supplied by the Client.

---

21. PROJECT TIMELINE

The estimated project completion time is:

7–10 working days

The project timeline will begin after:

1. Receipt of the agreed advance payment.
2. Final confirmation of the scope.
3. Receipt of necessary content and materials.
4. Receipt of required third-party credentials/access.

Delays caused by the Client, third-party service providers, payment gateways, hosting providers or unavailable content may extend the delivery date.

---

22. PROJECT COST & PAYMENT TERMS

Total Project Cost: ₹15,000

The payment schedule shall be:

- **50% Advance: ₹7,500** — payable before development begins.
- **50% Final Payment: ₹7,500** — payable before final delivery/deployment and handover of the completed website.

The final website, source code and production credentials will be handed over according to the payment and handover terms agreed between the Parties.

The project will not be considered fully delivered until the final payment has been received.

---

23. CHANGE REQUESTS

The agreed project scope is based on the approved prototype and requirements listed in this Agreement.

The following may be treated as additional work:

- New modules
- Major redesigns
- New integrations
- Mobile applications
- Advanced product configurators
- ERP integration
- CRM integration
- Accounting integration
- Advanced analytics
- Custom courier API integrations
- Advanced notification systems
- Additional payment gateways
- Major changes to the admin panel
- New functionality requested after development has substantially progressed

Additional work will be quoted separately before implementation.

---

24. BUG FIXING & SUPPORT

The Developer will fix genuine bugs related to the agreed functionality discovered within **30 days** after final delivery at no additional development charge.

This does not include:

- New features
- Design changes
- Content changes
- Third-party service failures
- Hosting problems
- Payment gateway problems
- Changes caused by Client or third-party modifications
- Changes required due to external API/platform updates

Ongoing maintenance and support after the included 30-day support period may be provided under a separate maintenance agreement.

---

25. INTELLECTUAL PROPERTY

Upon receipt of the full project payment, the Client will receive the agreed final website implementation developed specifically for Decor 41.

Third-party libraries, frameworks, APIs, fonts, plugins, open-source components and third-party services remain subject to their respective licenses and terms.

The Developer retains ownership of reusable development methodologies, generic components, frameworks, utilities and non-client-specific code used during development, unless otherwise agreed in writing.

---

26. THIRD-PARTY SERVICES

The Developer may use third-party services, APIs, payment gateways, hosting providers, libraries and software components where required.

The Developer is not responsible for:

- Third-party service downtime
- API changes
- Payment gateway rejection

- Hosting outages
- Third-party pricing changes
- Third-party account suspension
- Third-party service discontinuation

Where a third-party service becomes unavailable, the Parties may mutually agree on an alternative solution.

---

27. CONFIDENTIALITY

Both Parties agree to maintain confidentiality regarding non-public business, technical, financial and operational information shared during the project.

Neither Party shall disclose confidential information to third parties except where required for legitimate project execution or by law.

---

28. CLIENT APPROVAL

The Client agrees to review prototypes, development versions and final deliverables within a reasonable period.

Once the Client approves a major stage of development, subsequent changes to the approved functionality or design may be treated as change requests.

---

29. FINAL HANDOVER

After completion of the project and settlement of all outstanding payments, the Developer will provide the Client with the agreed production website and relevant administrative access.

Where applicable, the handover may include:

- Website deployment
- Admin panel access
- Domain configuration
- Hosting configuration
- Payment gateway configuration
- Database access
- Source code handover as agreed

- Basic deployment instructions

Passwords and credentials will be transferred securely.

---

30. TERMINATION

Either Party may terminate the Agreement by providing written notice if the other Party materially breaches the Agreement and fails to correct the breach within a reasonable period.

Payments already made for completed work, third-party services or non-refundable expenses will not automatically become refundable upon termination.

If the Client terminates the project after substantial development has been completed, the Client shall pay for the work completed up to the termination date.

---

31. LIMITATION OF LIABILITY

The Developer's responsibility is limited to delivering the website and functionality agreed under this Agreement.

The Developer shall not be liable for indirect losses, loss of business, loss of profits, payment gateway failures, courier failures, customer disputes, third-party service outages or losses caused by inaccurate information supplied by the Client.

---

32. ACCEPTANCE

By signing this Agreement, both Parties confirm that:

- The scope has been reviewed.
- The supplied Decor 41 prototype has been considered as the project reference.
- The Client understands the included functionality.
- The Client understands the payment-gateway and third-party-service responsibilities.
- Both Parties agree to the commercial and delivery terms stated above.
